Dear Sir -

The local undertaker has brought in the attached supplemented death certificate - Cause of death explains what he is driving at - It seems the man had a small Insurance policy which does not pay in the event of suicide.

Yours very truly
R. M. Bowell

Katsuzo Hayashi

DIVISION OF VITAL STATISTICS

September 25, 1952

R. M. Bowell, M. D.
Bonners Ferry, Idaho

Dear Doctor Bowell:

We are in receipt of the two death certificates for Katsuso Hayashi, one being the original and the other the amended copy. Before the amended copy is substituted for the original, we would like to call attention to the fact that there are many inconsistencies between the two certificates.

The original certificate has Item D under Number 1 as "None" while the amended has "Kootenai River." Item 4 has date of death "May 11" while the amended certificate shows "June 23rd." Item 24 on the original certificate shows that the man was buried on the "27th of June" while the amended copy shows he was buried on the "24th of June." It seems improbable that the date of death would be the 23rd of June and burial the 24th when Item 21 on the certificate shows that he died about May 11th and the condition of the body was such that it was impossible to tell the actual cause of death.

On the original certificate E. F. Stidwell from Sandppint signed as the funeral director while on the amended certificate E. W. Whitney from Bonners Ferry was the funeral director.

We realize that it is important that the exact cause be given for this man's death if insurance is involved, but we feel that it is more important that the correct facts be stated on the certificate. Our suggestion would be that the amended copy that we now have be destroyed and the new amended copy be submitted by the funeral director which will conform to the original certificate but have the correct facts stated thereon. We are sending an extra copy of this letter so that you may give it to the funeral director.

Please let us know what the decision will be on these certificates and we will be happy to make the necessary changes.

Very truly yours,

W. W. Benson, State Registrar

STATEMENT OF PLACE OF DEATH

Special attention should be given to the satisfactory completion of EACH portion of this item. The city or town and street address or route number refer to PLACE WHERE THE DEATH OCCURRED. For deaths occurring in hospitals, maternity homes, or institutions, the name of the place and length of stay MUST be stated.

STATEMENT OF USUAL RESIDENCE OF DECEASED

Regardless of the fact that the person may have lived his entire life at the place of death, ALWAYS COMPLETE ALL PARTS OF THIS ITEM. In case a person has resided in the county where death occurred for less than one year, give address of FORMER RESIDENCE. The post office of the deceased may be in a county or state other than the county of actual residence.

IDAHO CODE ANNOTATED-CHAPTER 38, SECTION 206.

The personal and statistical particulars (items 1 to 16) shall be authenticated by the signature of the informant, who may be any competent person acquainted with the facts.

The statement of facts relating to the disposition of the body shall be signed by the undertaker or person acting as such.

The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The international classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. Causes of death, which may be the result of either disease or violence, shall be carefully defined; and if from violence, its nature shall be stated, and whether (probably) accidental, suicidal, or homicidal.
